GUARANTEED ANALYSIS:

TOTAL NITROGEN (N) ................................................................. 24.00%

Ammoniacal Nitrogen

Urea Nitrogen* ........................................................................... 4.00%

AVAILABLE PHOSPHATE (P₂O₅) ................................................ 9.00%

Sulfur (S) .............................................................................. 11.50%

Iron (Fe) ............................................................................... 1.70%

Manganese (Mn) ................................................................. 0.25%

Derived from Polymer-Coated Sulfur-Coated Urea, Monoammonium Phosphate, Ammonium Sulfate, Sulfate of Potash, Iron Oxysulfate and Manganese Oxysulfate.

*15.60% Slowly available urea nitrogen from polymer-coated sulfur-coated urea.

APPLICATION RATES:

Turfgrass: Apply Approximately the Listed Settings Will

Lbs. of Actual Nitrogen desired to apply per 1,000 sq. ft.

Lbs. of BEST SHORT-KUT 24-4-9 with X-Cote to apply per 1,000 sq. ft.

0.75 .................................................. 3.10 .................................................. 135 .................................................. 0.28
1.00 .................................................. 4.20 .................................................. 183 .................................................. 0.38
1.25 .................................................. 5.20 .................................................. 227 .................................................. 0.47

*Recommended Rate

FAIRWAYS: Apply at the 1.25 lb. rate. This rate is for 25 lbs. of SHORT-KUT 24 per ACRE

APPLICATION PRECAUTIONS:

Recommended Rate. Spreaders should be checked for accuracy:

Lbs. of BEST SHORT-KUT 24-4-9 with X-Cote to apply per ACRE

0.75 .................................................. 3.10 .................................................. 135 .................................................. 0.28
1.00 .................................................. 4.20 .................................................. 183 .................................................. 0.38
1.25 .................................................. 5.20 .................................................. 227 .................................................. 0.47

TEES: Apply at the 1.25 lb. rate. This rate is for 25 lbs. of SHORT-KUT 24 per ACRE

NOTE: Liquid measuring cups are very close in estimating the weight of dry granular fertilizers. Example: an 8 oz. (1 cup) measuring cup holds approximately 8 oz. (1/2 lb.) of dry granular fertilizer.

PRODUCT COVERAGE:

Based on the Recommended Turfgrass Rate

ONE 50 LB. BAG COVERS 9,600 - 16,100 SQ. FT.
TWO - FIVE 50 LB. BAGS COVER 1 ACRE

SPREADER SETTINGS:

Listed Settings Will Apply Approximately the Recommended Rate.

SGN 150

APPLICATION PRECAUTIONS:

Apply dry turf or foliage and irrigate thoroughly immediately after application.

Keep away from pools, ponds, etc. Do not contaminate potable water.

Do not apply with a drop type spreader. The grinding action of these spreaders can damage the polymer coating and can increase turf burn potential.

Iron and other plant nutrients can cause staining of sidewalks. Sweep walkways prior to irrigation. Walkways should be dry at time of application.

PACKAGE SIZE:

50 LB. (22.68 Kg.) BAGS

Warning: This product contains a chemical known to the State of California to cause cancer, birth defects or other reproductive harm. Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986, requires notification of potential exposure to substances identified by the State of California as causing cancer, birth defects or other reproductive harm.
