

PERFECTION

Kentucky Bluegrass

FEATURES

Perfection Kentucky bluegrass (*Poa pratensis*) makes the PERFECT addition to your bluegrass blend or cool-season turf mixture.

- Top rated in **ALL 4** of the Maintenance Schedules and in **ALL 5** of the regions in the 2001 NTEP National Trials.
- No Statistical Difference between **Perfection** (J-1515) and the top-rated variety in quality.

PERFORMANCE CHARACTERISTICS

Irrigated, non-irrigated, 0-6 lbs. N/1000 sq.ft., less than 1" to 3" mowing height...this new "Aggressive Type" Kentucky Bluegrass offers TOP RATED PERFORMANCE with whatever maintenance regime is in place.

Perfection exhibits one of the shortest growth habits available, a fine leaf texture, and excellent turf density. It has one of the darkest Genetic Color ratings and has excellent Shear Strength/Traction Ratings.

SUPERIOR DISEASE TOLERANCE

Disease resistance is superb. **Perfection** has either the top rating or No Statistical Difference from the top rated entry in resistance to the following:

- Microdochium Patch
- Dollar Spot
- Leaf Rust
- Summer Patch
- Snow Mold
- Brown Patch
- Melting Out

SUGGESTED SEEDING RATE

2-3 lbs. per 1000 ft² (10-15 g/m²)
