

REVENGE GLX

Perennial Ryegrass

Take Revenge on Gray Leaf Spot

5★ = Outstanding, 4 = Very Good, 3 = Good, 2 = Moderate, 1 = Poor

- ✓ Selected for its resistance to gray leaf spot
- ✓ Great year-round turf density
- ✓ Excellent spring green-up and cold tolerance

★★★★★	Spring Green Up	★★★★★	Brown blight (<i>Drechslera spp.</i>)
★★★★★	Fine Leaf Texture	★★★★	Brown patch
★★★★★	% Ground Coverage	★★★★	Pythium blight
★★★★	Dark green color	★★★★★	Gray leaf spot
★★★★	Year-Round Density	★★★★	Red thread

Revenge GLX perennial ryegrass (*Lolium perenne*) was specifically selected for its resistance to gray leaf spot and is the most resistant Jacklin variety available earning it the "GLX" designation. **Revenge GLX** has fine leaf texture and dark green color to highlight any turf setting. It demonstrates great year-round density and maintains a high amount of living ground cover.

Revenge GLX on golf course in West Palm Beach, Florida

All Mowing Heights: **Revenge GLX** is adaptable to mowing heights as low as 0.44 in. (1.2 cm) and as high as 2.5 in. (6.35 cm). Unlike some perennial ryegrasses, **Revenge GLX's** best performance has been at mowing heights of 0.5-.75 in. (1.3-2 cm) under higher maintenance levels.

Disease Resistance: In addition to gray leaf spot resistance, **Revenge GLX** has excellent resistance to many common turfgrass diseases including brown blight, pythium blight, brown patch and red thread. Finally, there is a variety that you can plant to get revenge against the major diseases of perennial ryegrass.

Seedling Vigor: **Revenge GLX** is one of our fastest germinating ryegrasses with excellent seedling vigor to get a jump on the competition.

Cold Tolerance: **Revenge GLX** has reduced winterkill and excellent cold tolerance enhancing its performance throughout the northern United States or southern Canada.

Excellent Spring Green-Up: In addition to having great winter and cold tolerance, **Revenge GLX** comes out of the winter months ready to go with superb spring green-up.

Seeding Rate: New establishment: 5-10 lb/1,000 ft² (25-50 g/m²)
Overseeding dormant bermudagrass on greens 10-30 lb/1,000 ft² (50-150 g/m²) or fairways 200-500 lb/acre (225-565 kgs/ha)
