

PARTEE II[®]

Perennial Ryegrass Blend

PARTEE II PERENNIAL RYEGRASS BLEND

STRENGTHS:

- Combines four new generation turf-type, fine-textured varieties
- Excellent dark green color
- Clean mowing throughout the growing season
- Can be mowed as closely as 1/2"
- Quick to germinate and establish
- Good disease resistance
- Endophyte enhanced for insect resistance
- Available as a Blue Tag Certified Seed blend

PRODUCT DESCRIPTION:

ParTee II Perennial Ryegrass Blend is perfectly suited for repairing golf course fairways and tees, sports turf and general play areas. ParTee II provides an attractive, quick establishing, fine textured turf and competes well in area prone to weed and *Poa annua* infestation. Great for overseeding high traffic areas that continually require attention, e.g., tees, cart paths, soccer goals, football hash marks, compacted soils, etc. A great blend for divot mixes.

Available with Apron and Maxim seed treatment for *Pythium* control in young seedings.

SUGGESTED MAINTENANCE:

Fine-textured perennial ryegrasses, by nature, require higher maintenance levels. ParTee II is no different. A minimum of 2 fertilizer applications per year is recommended. An Additional 1 or 2 applications may be necessary when the added stress associated with high traffic, low cutting heights or compacted soils prevail. Higher maintenance levels are also recommended when seeding amended soils with ParTee II. Cutting heights can range from 1/2" to 3" depending upon cultural maintenance and intended use.

SEEDING RATES:

New Seedings	200-250 lbs. /acre
Overseeding	125-150 lbs. /acre
