

RIGHT ON® BLUE

SPRAY PATTERN INDICATOR

Non-staining blue liquid dye colorant

Now in a more concentrated, non-staining formulation!

GENERAL INFORMATION

RIGHT ON® BLUE is a non-staining blue liquid dye colorant that is designed to highlight spray application patterns when applying pesticide, fertilizer, and/or growth regulator tank mixes. RIGHT ON® BLUE assures that spray applications are uniform with minimum overlap and no missed areas.

KEEP OUT OF REACH OF CHILDREN

This product is not considered hazardous under the Globally Harmonized System (GHS) regulations.

DIRECTIONS FOR USE

Application rates will vary due to turf or vegetation type, height of cut, color, and density, and the color of the spray solution. Spray solutions that are prepared to spray at higher application rates (>85 gallons/acre [>640 L/hectare]) may require additional amounts of RIGHT ON® BLUE.

Initial applications should be made at the highest listed rates. This allows the operator to become familiar with the effect of RIGHT ON® BLUE applied to the turf. In subsequent applications, the RIGHT ON® BLUE rates should be adjusted to what is appropriate for the individual operator.

RIGHT ON® BLUE may be added anytime during the spray tank filling process. Minimum agitation is suggested.

USE RATES

Equipment	Application	Rate*
Boom Sprayers	Dormant turf, greens	8-14 fl oz / acre (6-10 mL / 100 m ²)
	Short-cut turf, fairways	16-22 fl oz / acre (12-16 mL/100m ²)
	Higher-cut fairways, lawns (residential & commercial)	20-30 fl oz / acre (15-22 mL/100m ²)
Backpack Sprayers	Spot spraying or small area coverage with mini boom	1 fl oz / gallon (30 mL/4L) of solution (covers up to 1,000 ft ²)
Hand Spray Gun	High volume (>2 gal/1,000 ft ² [>8 L/93m ²])	24-32 fl oz / acre (18-24 mL/100m ²)

***Individual operators perceive color differently—adjustments to the rates may be necessary!**
