To comply with different state soil amendment regulations, SSP 11-52-0 Monoammonium Phosphate coated with AVAIL has three different labels. The correct Guaranteed Analysis, as noted below, will appear on the label according to your location.

**ALL STATES GUARANTEED ANALYSIS**

TOTAL NITROGEN (N) ............................................................... 11.00%

11.00% Ammoniacal Nitrogen

AVAILABLE PHOSPHATE (P₂O₅)* ................................................. 52.00%

Molybdenum (Mo) ........................................................................ 0.001%

Derived from Monoammonium Phosphate.

*A2.70% Available Phosphate coated with Maleic Itaconic Copolymer (AVAIL).

**Additional label guarantee for AVAIL in ARIZONA and CALIFORNIA**

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:

0.27% Maleic Itaconic Copolymer (AVAIL)

**KEEP OUT OF REACH OF CHILDREN**

**WARNING**

CAUSES EYE IRRITATION. MAY CAUSE RESPIRATORY IRRITATION.

**PRECAUTIONARY STATEMENTS:** Avoid breathing dust. Wash hands, forearms and face thoroughly after handling. Use only outdoors or in a well-ventilated area. Call a poison center / doctor if you feel unwell.

**FIRST AID:**

**IF IN EYES** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

**IF INHALED** Remove person to fresh air and keep comfortable for breathing. **IF IN EYES** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

---

**ADVANTAGES**

1. Avail for Granular Phosphates (Patent No. 6,525,155), a non-plant food ingredient designed for coating on granular phosphate fertilizers, sequesters antagonistic ions in the soil surrounding the fertilizer granule, reduces tie-up of phosphate, and makes phosphate more available to the plant. Avail increases phosphate availability through all stages of plant growth, including early development, the most crucial period for increasing yield potential. Avail is water soluble and biodegradable. Undisturbed, Avail continues to inhibit phosphate fixation throughout the growing season.

2. CAUTION: Application of fertilizer materials containing Molybdenum (Mo) may result in forage crops containing levels of Molybdenum (Mo) that are toxic to ruminant animals.

3. WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov

**DISCLAIMER OF WARRANTIES** J.R. Simplot Company warrants that the composition of this product conforms to the description and is reasonably fit for the purpose as stated on the label only when used in accordance with label directions under normal conditions of use. This warranty is expressly in lieu of all other warranties and representations expressed, implied, or statutory, including warranties of merchantability and fitness for a particular use. Timing, rate and method of application, weather and crop conditions, mixtures not specifically recommended on this label or an accompanying written recommendation, are beyond the control of the seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees that, in the event of damages resulting from, but not limited to, weather or soil conditions, presence of other materials, or failure to follow label directions, responsibility will be assumed by the buyer or user, and to accept a replacement of the product or a refund of the purchase price of the product, at buyer’s option, as full discharge of seller’s liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.
