AGROPELL™

15-15-15

with 10% Sulfur

To comply with different state regulations, AGROPELL by Simplot AVAIL 15-15-15 with 10% Sulfur has 2 different labels. The correct Guaranteed Analysis, as noted below, will appear on the label according to your location.

ALL STATES

GUARANTEED ANALYSIS
TOTAL NITROGEN (N) .......................................................................................................................... 15.00%
13.00% Ammoniacal Nitrogen
2.00% Urea Nitrogen
AVAILABLE PHOSPHATE (P₂O₅)* ............................................................................................................. 15.00%
SOLUBLE POTASH (K₂O) .................................................................................................................. 15.00%
Sulfur (S) ........................................................................................................................................... 10.00%

Derived from Monoammonium Phosphate, Urea, Ammonium Sulfate and Muriate of Potash.

*15.00% Available Phosphate (P₂O₅) coated with Maleic Itaconic Copolymer.

Additional Label Guarantee for AVAIL in CALIFORNIA AND ARIZONA
ALSO INCLUDES NON-PLANT FOOD INGREDIENTS:
0.27% Maleic Itaconic Copolymer (AVAIL)

KEEPS OUT OF REACH OF CHILDREN

WARNING
CAUSES EYE IRRITATION. MAY CAUSE RESPIRATORY IRRITATION.

PRECAUTIONARY STATEMENTS: Avoid breathing dust. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Call a poison center / doctor if you feel unwell.

FIRST AID: IF INHALED Remove person to fresh air and keep comfortable for breathing. IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Avoid breathing dust. Wash

FACE. IF INHALED Remove person to fresh air and keep comfortable for breathing.

STORAGE AND DISPOSAL: STORAGE Store in a well-ventilated place. Keep container tightly closed. Store locked up. DISPOSAL Dispose of contents / container in accordance with local / regional / national regulations.

PHYSICAL CHARACTERISTICS
Lbs. of Nutrients/Ton:
Nitrogen (N) 300
Phosphate (P₂O₅) 300
Potash (K₂O) 300
Sulfur (S) 200
Combined Nutrient Total 1100

Bulk Density: 60 lbs. per cubic foot
Solubility in Water: 90% (of guaranteed P₂O₅)
Granule Size: 90% retained by Tyler screen mesh #16.
(This is an in-line product of uniform, free flowing granules.)

ALSO INCLUDES NON-PLANT FOOD INGREDIENT (LBS./TON)
Maleic Itaconic Copolymer (AVAIL) 5.4

USES
1. For specific application rates follow the recommendation of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

2. Each granule contains an accurate portion of all plant food nutrients guaranteed on the label providing a uniform supply of nutrients to any crop. It is especially effective on vegetable crops.

ADVANTAGES
1. AGROPELL by Simplot AVAIL 15-15-15 with 10% Sulfur should be used at the same rates as non-coated AGROPELL by Simplot 15-15-15 with 10% Sulfur. Avail for Granular Phosphates (Patent No. 6,525,155), a non-plant food ingredient designed for coating on granular phosphate fertilizers, sequesters antagonistic ions in the soil surrounding the fertilizer granule, reduces tie-up of phosphate, and makes phosphate more available to the plant. Avail increases phosphate availability through all stages of plant growth, including early development, the most crucial period for increasing yield potential. Avail is water soluble and biodegradable. If undisturbed, Avail continues to inhibit phosphate fixation throughout the growing season.

2. Is a highly concentrated homogeneous fertilizer pellet that contains 10% sulfur and a 1:1:1 ratio of N-P-K.

3. Note the Sulfur content of 10%. Each ton of product contains 200 pounds of sulfur. When applying, common application rates for N-P-K, it will also provide the sulfur requirements for many crops. An important factor – the sulfur is in the sulfate form – a readily available plant nutrient.

4. The high concentration of plant food results in dollar savings in storage, transportation, and application.
