Product Data Sheet

DIAMMONIUM PHOSPHATE
18-46-0

GUARANTEED ANALYSIS:
TOTAL NITROGEN (N) ................................................................. 18.00%
18.00% Ammoniacal Nitrogen
AVAILABLE PHOSPHATE (P$_2$O$_5$) ................................................. 46.00%
Derived from Diammonium Phosphate.

KEEP OUT OF REACH OF CHILDREN
WARNING
CAUSES SKIN IRRITATION. CAUSES EYE IRRITATION. MAY CAUSE RESPIRATORY IRRITATION.

PRECAUTIONARY STATEMENTS: Avoid breathing dust. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Call a poison center / doctor if you feel unwell. Specific treatment see First Aid section on this label.

PERSONAL PROTECTIVE EQUIPMENT: Wear protective gloves / protective clothing / eye protection / face protection. Take off contaminated clothing and wash before reuse.

FIRST AID: IF ON SKIN Wash with plenty of water. If skin irritation occurs get medical advice / attention. IF INHALED Remove person to fresh air and keep comfortable for breathing. IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice / attention.

STORAGE AND DISPOSAL: STORAGE Store in a well-ventilated place. Keep container tightly closed. STORED IN ACCORDANCE WITH LOCAL / REGIONAL / NATIONAL REGULATIONS.

PHYSICAL CHARACTERISTICS
Lbs. of Nutrients/Ton: Nitrogen (N) 360
Phosphate (P$_2$O$_5$) 920
Combined Nutrient Total 1280
Angle of Repose: 30
Bulk Density: 57.5 lbs. per cubic foot (poured)
62.5 lbs. per cubic foot (packed)
pH (20% solution): 7.3
Solubility in Water: 93% (% of total P$_2$O$_5$)
94% passes through a 4mm (5 Tyler) and is retained by a 2.0mm (9 Tyler) screen. 100% retained by a 1.18mm (14 Tyler) screen. Average granule size 2.55mm.

USES
1. Is an ideal combination of N and P$_2$O$_5$ for use as a starter fertilizer on small grains, row crops, tree crops and forages.
2. Chemically compounded N and P$_2$O$_5$. The ammonium phosphate combination in each pellet enhances the uptake of phosphate by the plant. The highly water soluble phosphate goes to work quickly allowing efficient utilization by plants. The ammonic form of nitrogen reduces nitrogen losses by leaching.
3. Works well in acid or alkaline, calcareous or non-calcareous soils.
4. This product is a commercial fertilizer used as plant food in agricultural crop production. For specific application rates follow the recommendation of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

ADVANTAGES
1. Is well adapted to a wide range of application methods—preplant broadcast, banded at planting time, drilled with small grains at seeding time, sidedressed, or broadcast on pasture or alfalfa stubble.
2. An excellent product for use as a base in dry blends because of its N:P$_2$O$_5$ ratio and its uniform pellet size.
3. Has uniform pellet size: free flowing, blends well, spreads evenly, dust free, resists crusting and bridging in storage bins.
4. Is a high analysis product: allows for more nutrient to be stored in the same bin space and reduces handling and freight costs per pound of nutrient.

Warning: This product contains a chemical known to the State of California to cause cancer, birth defects or other reproductive harm. Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986, requires notification of potential exposure to substances identified by the State of California as causing cancer, birth defects or other reproductive harm.
