**WARNING**  
CAUSES SKIN IRRITATION. CAUSES EYE IRRITATION.  
MAY CAUSE RESPIRATORY IRRITATION.

**PRECAUTIONARY STATEMENTS:** Avoid breathing dust. Wash hands, forearms and face thoroughly after handling. Use only outdoors or in a well-ventilated area. For specific treatment see Supplemental First Aid instruction on this label.

**PERSONAL PROTECTIVE EQUIPMENT:** Wear protective gloves / protective clothing / eye protection / face protection. Take off contaminated clothing and wash it before reuse.

**IF INHALED** Remove person to fresh air and keep comfortable for breathing. Call a poison center / doctor if you feel unwell. **IF IN EYES** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical attention.

**STORAGE AND DISPOSAL: STORAGE** Store in a well-ventilated place. Keep container tightly closed. Store locked up. **DISPOSAL** Dispose of contents / container in accordance with local / regional / national regulations.

**BENEFITS**

- Releases all the primary nutrients through a process of diffusion using GAL-XeONE, Simplot's exclusive controlled release fertilizer technology.
- Release of nutrients with GAL-XeONE is predictable and reliable. The coating has been precisely applied to ensure the effectiveness of each granule.
- Release of nutrients is not significantly affected by media type, moisture level, pH, or microbial activity.

**SOIL / MEDIA TEMPERATURE RELEASE RATES**

50°F = 14-16 month
60°F = 12-14 month
70°F = 10-12 month
80°F = 8-10 month

**APPLICATION RATES:** (Call for rates on larger containers.)  
Use **LOW** rate for low feeding, sensitive plants or under high soil temperatures.  
Use **MEDIUM** rate for medium to moderately heavy feeding plants.  
Use **HIGH** rate only for heavy feeding hardy plants.  
These application rates are based on the average temperature at the fertilizer location of 70°F. Increase fertilizer application rates by 20% if average monthly temperatures are lower than 60°F. Lower application rates by 20% if average monthly temperatures are greater than 80°F.

**APPLICATION PRECAUTIONS**

- Trial before use of this product under your local growing conditions, application methods, and desired rates. Avoid application to plants under stress.
- If mixed media is not used within one week, leach thoroughly before using.
- Product left in media for more than one week will lose longevity resulting in reduced release time and wasted controlled release fertilizer.
- Avoid the use of media processing equipment that could change the integrity of the polymer coating.
- Avoid mounding of fertilizer against base of plant.
- Iron and other plant nutrients can cause staining of cement.
- Keep away from pools, ponds, and other bodies of water.
- When using potting media with higher cation exchange capacities use lower recommended rates of this formulation.
- When using supplemental liquid feed reduce the rate of this formulation accordingly.
- Do not incorporate into media prior to steam sterilization.
- This product is not recommended for dibble applications.
- To avoid buildup of soluble salts, occasional leaching may be necessary.
- WARNING: Application of fertilizer materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) that are toxic to ruminant animals.
