BENEFITS: BEST® Mini Pro 12-8-16 with 3% Iron

- Mini-sized uniform homogeneous granular fertilizer that supplies high levels of potash to help increase disease resistance, protein production, and formation and translocation of starches and sugars.
- Contains Sulfate of Potash for the turf manager who is concerned about excess chlorides in the soil.
- Contains 3% iron to prevent chlorosis, a yellowing of new foliage, usually caused by high soil pH and iron deficiency.
- A homogeneous pellet which virtually eliminates the possibility of iron staining sidewalks, mow strips and cart paths, because the iron is not a separate highly concentrated pellet.
