

PLANT NUTRIENT

CAPTIVATE™ D

10-20-5

Captivate™ D is a low salt, 100%, clear, seed safe orthophosphate that can be applied at plant in furrow, in a 2x2 band or through irrigation equipment. When applied at plant in furrow or in a 2x2 band, Captivate D promotes early root development and root and shoot growth.

BENEFITS

- Low salt, seed safe formulation
- Clear formulation
- 100% orthophosphate
- Low pH (less than 7)
- Sulfur free
- Promotes early root development and root and shoot growth
- Application methods: at plant in furrow, 2x2 band, or through irrigation equipment

CROP/RATES

ROW CROPS

- **Foliar:** 1-2 gal/a
- **Soil:** Up to 5 gal/a*

FRUIT/NUT TREES

- **Foliar:** 1-2 gal/a in a min. of 50 gal/a solution
- **Soil:** Inject up to 30 gal/ 4-6" below tree drip line

ANALYSIS

Nitrogen	10.00%
Available Phosphate	20.00%
Soluble Potash	5.0%
Zinc	0.43%

TIMING

- In-furrow
- 2x2
- Foliar
