

PLANT NUTRIENT

CHE[™]

MAGNESIUM 2.5%

Magnesium is an essential micronutrient. It is the central core of the chlorophyll molecule and helps activate some enzymatic systems. Protecting and maximizing your magnesium, the CHE[™] EDTA formulation helps keep magnesium from reacting with other materials in the soil, maximizing availability and utilization. CHE brands are formulated for soil applications to maximize agronomic ROI.

BENEFITS

- CHE EDTA formulation
- Helps protect magnesium from reacting with other materials in the soil
- Maximizes availability and utilization of magnesium
- Soil applied magnesium
