CHROMA™
0.19-0-0

Chroma™ is an organic combination and balanced supply of micronutrients, fermentation metabolites, and yeast cell wall extract. Chroma helps prime and unlock a plant's natural defense mechanisms by helping to fortify a plant's cell walls and tissues, stimulates plant processes by providing essential nutrients, and it helps improve crop uniformity, marketable quality, and yield.

BENEFITS

- Organic combination and balanced supply of micronutrients and bioactive compounds
- Helps prime and unlock a plant's natural defense mechanisms
- Helps improve crop uniformity, marketable quality, and yield

APPLICATION TIMING

- Foliar
- Application Timing: late season to drive fruit color
- Refer to label recommendation base on crop

USE RATES

- **14-28 oz/A**

Multiple crop use
