

Compose® WSP is a premium, balanced blends of humic acid, fulvic acid, and fresh water carbon built to enhance the availability and uptake of nutrients, stimulate soil microorganisms, buffer salts, and minimize plant stress.

BENEFITS

- Enhances the availability and uptake of nutrients
- Stimulates soil microorganisms
- Buffers salts
- Increases water holding capacity

DIRECTIONS FOR USE

Dissolve 4 oz of Compose WSP in 1 gallon of water

APPLICATION TIMING

- **Soil**
- **Foliar**

USE RATES

Soil Applied

1. Use 1-2 gallons of solution per acre
2. Add liquid fertilizer or other tank mix partners

Please see instructions in the label. Apply banded in-furrow, side-dressed, or through flood, furrow or drip irrigation.

Foliar Applied

1. Use 0.5-1 gallon of solution per acre

Please see instructions in the label.

Multiple crop use
