

GOLDEN BIO[®]

Golden Bio[®] is a plant-active carboxylic acid package formulated to help with key nutrients like phosphate, aiding in their solubility and availability, to increase soil or foliar applied nutrient uptake and utilization. When combined with soil applied liquid phosphate fertilizers, it promotes root growth and stimulates soil microbes.

BENEFITS

- Plant-active carboxylic acid package
- Helps keep nutrients, like phosphate, soluble and available
- Increases uptake of soil and foliar applied nutrients
- Promotes root growth and stimulates soil microbes
- Does not stain tanks or equipment

CROP/RATES

Soil Applied Fertilizer Efficiency Additive

- Apply 0.5 – 2 gallons/A with liquid fertilizer applications

Nitrogen	Use 1 gallon of Golden Bio to 20 gallons of N/A
Phosphorous	Use 1 gallon of Golden Bio to 10 gallons P /A
Potassium	Use 1 gallon of Golden Bio to 15 gallons of K /A

Foliar Efficiency Additive

- Apply 0.5 – 1 gallon/A mixed with foliar nutrition products
