Novus<sup>®</sup> is an innovative, superior, crop safe and patented triazone, slow release nitrogen fertilizer. Because of its unique formulation, the nitrogen is rapidly absorbed, translocated, and remobilized, and can be utilized, maximizing agronomic ROI.

## BENEFITS

- Innovative, superior, crop safe nitrogen foliar fertilizer
- Patented triazone slow release nitrogen
- Rapidly absorbed by plant, translocated, and remobilized within the plant for greater utilization
- Unique formulation that minimizes nitrogen loss

## CROP/RATES

Refer to label

## TIMING

- Foliar
- Soil
- Side-dress
- Utilize tissue samples for best results
