

PLANT NUTRIENT

Novus® B is an innovative, superior, crop safe and patented triazone, slow release nitrogen and boron fertilizer. Because of its unique formulation, the nitrogen and boron are rapidly absorbed, translocated, remobilized and can be utilized, maximizing agronomic ROI.

BENEFITS

- Innovative, superior, crop safe nitrogen and boron foliar fertilizer
- Patented triazone slow release nitrogen
- Rapidly absorbed by plant, translocated, and remobilized within the plant for greater utilization
- Unique formulation that minimizes nitrogen loss

TIMING

- Refer to label
- Utilize tissue samples for best results
