

ORVANA™

5-0-0

OrvAnA™ is a unique, specialty organic fertilizer derived from plants, for plants, and is made up of an amino acid complex and polypeptides. OrvAnA helps mitigate stresses plants or crops may experience during their growth stages and lifecycles. OrvAnA also aids in nutrient absorption through both the roots and the leaves.

BENEFITS

- Organic specialty fertilizer derived from plants, for plants
- Amino acid complex and polypeptides
- Helps mitigate stress
- Aids in nutrient absorption through the roots and leaves
