

PLANT NUTRIENT

SEED TREATMENT

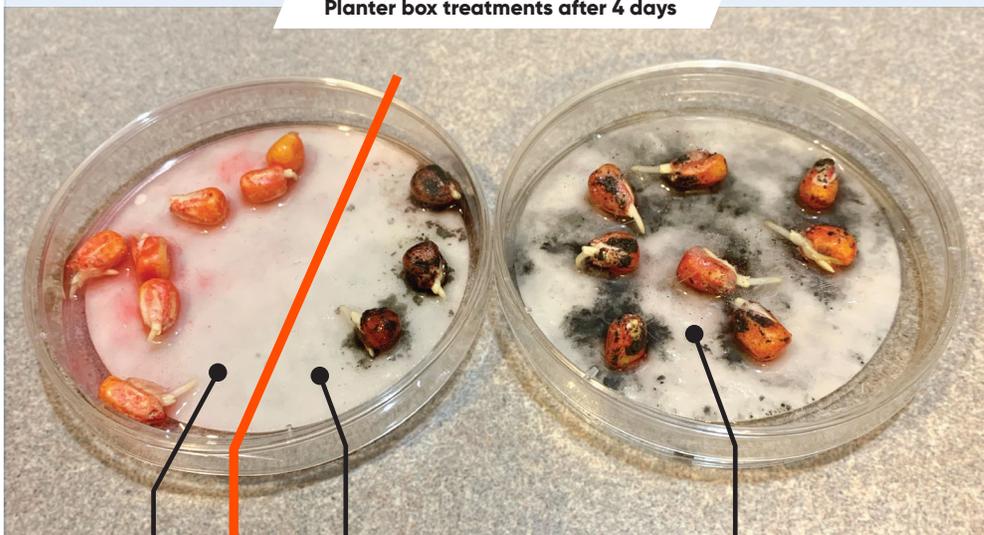

The best way to finish with strong yields is to start with a strong, consistent stand. ReziRx® is a talc-based, micronutrient package backed by Innvictis BioScience's VaRx Technology. ReziRx provides crops with early season access to essential micronutrients, promotes a more robust rooting system, improves early season vigor, helps mitigate environmental stresses, and increases a planters flowability.

SIMPLOT SCOOP: PLANTER BOX CHALLENGE

After conducting a competitive challenge (+ 4 Days) this is what we found.

Planter box treatments after 4 days

Untreated

Competitor Challenger
