**V-AGRI**<sup>®</sup>  
12-9-6

V-AGRI<sup>®</sup> is a complete macro and micro nutritional package. The orthophosphate in V-AGRI is soluble and available, and some of the micronutrients are EDTA chelated to help protect them from reacting with other materials in the soil. Early season V-AGRI promotes root development and early seedling growth. It can be applied at plant or as a foliar.

## BENEFITS

- Complete nutritional package - N, P, K, B, Co, Cu, Fe, Mn, Mo, and Zn
- Orthophosphate - soluble and available
- EDTA chelated Cu, Fe, Mn & Zn; EDTA chelate helps protect nutrients from reacting with other materials in the soil
- Promotes root development and early seedling development
- Application method - soil or foliar
