PLANT NUTRIENT

VELOCITY™ iQ

2-40-28

Velocity™ iQ is an innovative water soluble, low salt, 100% orthophosphate fertilizer that's plant available. It's backed by carbon technology that helps complex it, helping minimize tie-up with things like calcium. Because of its low salt index, it's seed safe, making it a great at plant or starter fertilizer.

BENEFITS

- 100% orthophosphate - very soluble and plant available
- Backed by carbon technology - helps complex phosphate, minimizing tie-up
- Low salt, seed safe, at plant or starter fertilizer.
- N, P, K, and Zn fertilizer
- Superior, water soluble starter fertilizer

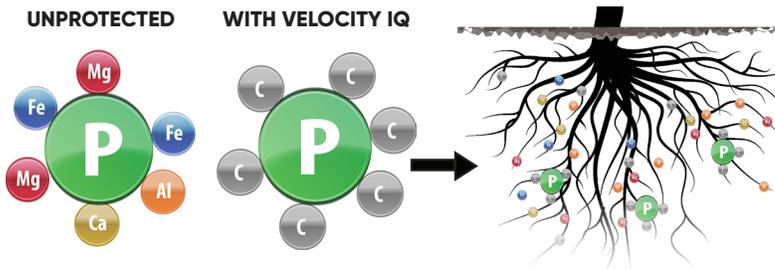

USE RATES

- **Foliar:** 1-3 lb per acre
- **In-furrow:** 2-5 lb per acre
- **Mix 1 lb Velocity iQ in 1 gallon water and mix thoroughly before application**

Multiple crop use
Please refer to soil test

TIMING

- In-furrow
- 2x2
- Foliar

Velocity iQ protects phosphorus with carbon complexing, keeping phosphorus free from soil tie-up and highly available to the crop.
