

# VITACROP<sup>®</sup> ZMB

Zinc, manganese, and boron are all essential micronutrients. VitaCrop<sup>®</sup> ZMB is an innovative zinc, manganese, and boron package, formulated for adhesion to dry fertilizer for greater distribution, utilization, and maximum agronomic ROI. By adding VitaCrop ZMB to your dry fertilizer blend you're able to apply the right nutrients, at the right rate, in the right place, at the right time. VitaCrop ZMB is also able to help extend the window of nutrient availability for optimal plant uptake.

## BENEFITS

- Provide essential zinc, manganese, and boron based on soil types and soil test results
- Delivers zinc, manganese, and boron on every prill of dry fertilizer, maximizing nutrient distribution and utilization
- Excellent flexibility in storing, transporting, blending, and applying
- Proprietary adjuvant system and electrostatic interaction minimizes challenges with dust

## USE RATES

- Recommended rate based off crop needs and soil test results
- 0.5 to 4 lbs/acre
- Average use rate: 1 lb/acre

## GUARANTEED ANALYSIS

- Zinc 26%
- Manganese 13%
- Sulfur 5.5%
- Boron 3%
