¹For use on Glyphosate tolerant crops only. ²For use on Glufosinate tolerant crops only. ³For use on 2,4-D tolerant crops only. (All products tankmixed with Enlist One must be approved for use. Refer to enlistankmix.com for most up-to-date tank mix approvals. ⁴Use rate per acre may vary depending on tillage practices, soil type, or percentage of organic matter. Please refer to label. ⁵For use on dicamba tolerant crops only. (All applications with Engenia must include a labeled DRA and VRA. All products tankmixed with Engenia must be approved for use. Please refer to engeniatankmix.com for most up-to-date tank mix approvals.

In-jug formulation of sulfentrazone and S-metolachlor provides unsurpassed residual control of over 50 grasses and broadleaf weeds. The XRT platform delivers performance that rivals equivalent branded products. Pre-plant residual for soybeans positioned at a critical time for weed free fields.

Premium nonionic surfactant with oil like performance with penetration and spreading capabilities. A versatile surfactant that has a fit in most pesticide applications.

NORTHERN PLAINS

A fast-acting, dual mode of action fungicide that controls over 30 major crop diseases. The combination of preventative and curative activity, proven disease control, and increased plant health is delivered.

Avenger Max is a proprietary formulation of bifenthrin and imidacloprid, offering dual modes of action for insect control. Containing high loads of active ingredient, Avenger Max can provide optimal performance at low use rates on a wide array of crops.

*Restricted Use Pesticides

Always refer to the product label for Precautionary Language, Directions For Use and Specific Use Rates. Please reach out to your local Innvictis rep with additional product questions.
