

## INNLIKEN TRZ + ADVERSARY PROMO

**Choosing the right fungicide and adjuvant combination is an important decision to achieve disease prevention and control, boost plant health and protect yield potential. Innvictis Crop Care® has the product portfolio to rise to the occasion.** Innliven TRZ is a new, unique fungicide formulation with multiple modes of action (pyraclostrobin and tetraconazole) specifically created to help control the most troublesome diseases in corn like Tar Spot, Northern Corn Leaf Blight, Gray Leaf Spot and Southern Rust. Pairing Innliven TRZ with our recommended adjuvant Adversary®, you can be assured that your pesticide application is on target because of Adversary's ability to penetrate, stick and spread across the leaf surface with ease. Adversary is also NPE/APE free allowing for flexibility with crop safety in mind.

### PREFERRED FUNGICIDE

# INNLIKEN<sup>®</sup> TRZ

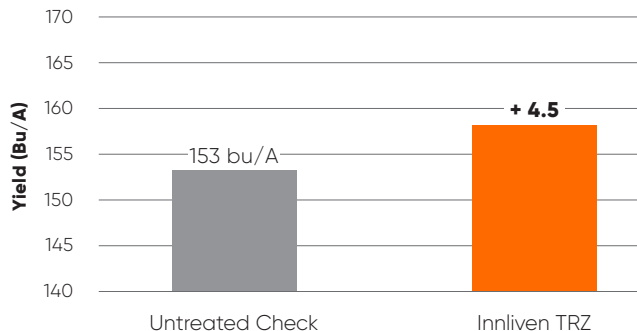

#### ACTIVE INGREDIENTS

**Pyraclostrobin:** 2.26 lb/gal  
**Tetraconazole:** 1.24 lb/gal

Innliven<sup>®</sup> TRZ is a fast acting, dual mode of action fungicide that controls over 30 major crop diseases. Innliven TRZ contains pyraclostrobin and tetraconazole, a unique combination exclusive to Innvictis. With its combination of preventative and curative activity, Innliven TRZ delivers long lasting disease control with increased plant health. Innliven TRZ controls a variety of diseases in a diverse set of crops.

- Broad-spectrum disease control in a variety of crops
- Preventative and curative activity on common diseases that increases plant health
- Improved abiotic stress tolerance
- Proprietary premix unique to the Innvictis lineup

#### CORN FUNGICIDE TRIAL (AMES, IA)

#### TARGET DISEASES

#### PRODUCT RATE PER APPLICATION

Anthrachnose  
Eyespot  
Gray leaf spot  
Northern corn leaf blight  
Northern corn leaf spot  
Physoderma brown spot  
Rust, common  
Rust, southern  
Southern corn leaf blight  
Tar spot  
Yellow leaf blight

**4.6 - 9.5  
FL OZ/A**

### PREFERRED ADJUVANT

Spreader, Deposition Aid, Penetrant

**USE RATE:** 0.25-0.5% v/v or  
1-2 quarts per 100 gallons

Adversary<sup>®</sup> is a powerful spreader, deposition aid, and penetrant designed to enhance droplet size while still allowing for optimal spreading and adhesion on the leaf surface.

- Contains multiple functions in one jug, providing convenience for the operator
- Strong performance in aerial applications
- Increased performance at lower use rates, allowing you to get more out of your pesticide program
- Powered by Inntero technology, which provides more adjuvant properties in one convenient jug
- No compromise on performance for the sake of convenience
