

ADVERSARY[®]

INNTERO[®]

Adversary is a multi-functional adjuvant formulated with INNTERO™ technology, which allows for greater spreading of droplets and wetting of the target surface, leading to optimal coverage and uptake. Adversary was designed to optimize droplet sizing for canopy deposition and drift management, making it an ideal adjuvant for aerial applications.

FEATURES & BENEFITS

INNTERO technology

- A concentrated formula that improves wetting, spreading, and penetration capabilities

Optimal droplet sizing

- Improved deposition, drift control, and coverage

Decreased surface tension

- Greater spreading of droplets on the leaf surface

NPE/APE free formula

- Excellent crop safety

PRINCIPLE FUNCTIONING AGENTS

- Ethoxylated sorbitan fatty acid ester
- Ethoxylated soybean oil
- Copolymer of alpha- and beta- pinene

ADJUVANT FUNCTIONS

- Deposition Aid
- Drift Control
- Penetrant
- Spreader

USE RATES

Ground or Aerial: 1-2 qts/100 gal or 0.25%-0.5% v/v

WEED CONTROL 7 DAA: 32 oz K-Salt Glyphosate
