

Valkarie is a multi-functional adjuvant formulated with INNTERO™ technology, which allows for greater spreading of droplets and wetting of the target surface, leading to optimal coverage and uptake. With its capability to penetrate like an oil adjuvant, Valkarie can replace a standard MSO or COC if the label doesn't call for those explicitly

FEATURES & BENEFITS

INNTERO technology

- A concentrated formula that improves wetting, spreading, and penetration capabilities

Decreased surface tension

- Greater spreading of droplets on the leaf surface

Optimal droplet sizing

- Improved deposition and coverage

Replacement for COC and MSO at a 75% lower use rate

- Less waste and faster tank mixing

Formulated with resin

- Improved adhesion of spray droplets

NPE/APE free formula

- Excellent crop safety

PRINCIPLE FUNCTIONING AGENTS

- Ethoxylated fatty acid methyl ester
- Ethoxylated seed oil
- Methylated seed oil

ADJUVANT FUNCTIONS

- Nonionic Surfactant
- Penetrant
- Spreader
- Deposition Aid
- Sticker

USE RATES

0.25% v/v or 1qt/100 gal
