

**INNTERVENE SC**

Miticide that offers fast delivering and long-lasting control on various mites: two-spotted spider mites, pacific spider mites, bank grass mites, and more. Etoxazole active adequately eliminates mites at the ovicide/larvicide stages. Inntervene® SC comes in a user-friendly liquid formulation.

BENEFITS

- Broad spectrum miticide
- Fast delivering and long-lasting residual activity
- Works for use as an ovicide/larvicide while not disturbing beneficial insects

KEY INSECTS

CONTROLLED

- European red mite
- McDaniel spider mite
- Strawberry spider mite
- Banks grass mite
- Pacific spider mite
- Two-spotted spider mite

(Please read label for full list of controlled insects)
