

INNVOXIA™ EC

Innvoxia™ EC is an indoxacarb containing broad-spectrum insecticide that's quick to act with long lasting residual. Innvoxia EC controls common pests in Alfalfa, Corn, Soybeans, Cotton and Peanuts like Alfalfa weevil, Cabbage Looper, Fall Armyworm, Corn Rootworm (adult), and more. Innvoxia EC features a differentiated mode of action making it an excellent IPM partner in resistance management programs.

BENEFITS

- Differentiated mode of action with proven performance on Weevil and Lepidoptera insects
- Short Pre-Harvest Interval allowing for timely harvest after application
- Controls pyrethroid resistant pests with reduced risk on beneficial insects
- Powerful combination of knockdown and long-lasting residual control

KEY INSECTS

CONTROLLED

Alfalfa	Alfalfa Weevil, Egyptian Alfalfa Weevil Larvae, Cabbage Looper, Grasshoppers, Alfalfa caterpillar, Granulated Cutworm, Armyworm (Beet, Western yellowstriped)
Dry Beans	Corn earworm, European corn borer
Corn	Armyworm (Beet, Fall), Corn earworm, Corn rootworm (adult), Grasshoppers
