

MavRx® is an innovative and unique blend of plant growth regulators backed by Innvictis BioScience VaRx Technology. MavRx promotes root development, growth and proliferation, shoot growth, improves nutrient absorption, and helps mitigate stresses.

BENEFITS

- Promotes root growth, development, and proliferation
- Stimulates vegetative growth
- Aids in nutrient absorption
- Helps mitigate stresses

USE RATES

- In-Furrow At Planting: 2 oz/A
- Foliar Applications: 2 oz/A
