

**INSECTICIDE**

**FUNGICIDE**

**RESTRICTED USE PESTICIDE**

An in-can mixture of Nirvana® technology, bifenthrin, and pyraclostrobin. This “ready-to-use” liquid in-furrow insecticide and fungicide offers early season protection against costly yield-robbing pests and diseases. Nirvana Complete provides seed protection from corn rootworm and rhizoctonia when applied in-furrow in corn. Nirvana Complete may also be applied for foliar use in certain crops.

### BENEFITS

- Controls seed and seedling pests such as armyworms, cutworms, grubs, seed corn maggot, and wireworms
- Maximum use rate controls corn rootworm
- Controls broad spectrum of yield robbing diseases
- Excellent tank mix partner with liquid fertilizers
- Stays in suspension longer than equivalent products allowing for more uniform application

### KEY INSECTS

#### CONTROLLED

- Cutworm species
- Seed corn maggot
- Wireworm
- Grape colaspis
- Corn rootworm larvae

### KEY DISEASES

#### CONTROLLED

- Rhizoctonia seed and seedling spot

### ACTIVE INGREDIENTS

- Pyraclostrobin **11.25%**
- Bifenthrin **11.25%**
