³For Use on glyphosate tolerant or Roundup Ready corn.

Premium nonionic surfactant with oil like performance with penetration and spreading capabilities. A versatile surfactant that has a fit in most pesticide applications.

Unique premix fungicide that provides disease control and plant health in many agricultural crops. Contains pyraclostrobin and propiconazole to enhance control over rusts and leaf spot and blight diseases.

Controls annual broadleaf and grasses in field corn, seed corn, sweet corn, yellow popcorn, and grain sorghum before and after crop emergence. Villain XRT contains eXtended Residual Technology which improves deposition and keeps residual herbicides in the weed germination zone longer allowing for enhanced residual.

Outstanding mix of bifenthrin insecticide for control of piercing and sucking insects and mites on many crops plus our ENDURX technology which delivers higher dosage faster by creating more points of contact.
