¹For use on Glyphosate tolerant crops only. ²For use on Glifosinate tolerant crops only. ³For use on 2,4-D tolerant crops only. (All products tankmixed with Enlist One must be approved for use. Refer to enlisttankmix.com for most up-to-date tank mix approvals. ⁴Use rate per acre may vary depending on tillage practices, soil type, or percentage of organic matter. Please refer to label. ⁵For use on dicamba tolerant crops only. (All applications with Engenia must include a labeled DRA and VRA. All products tankmixed with Engenia must be approved for use. Please refer to engeniatankmix.com for most up-to-date tank mix approvals.

In-jug formulation of sulfentrazone and S-metolachlor provides unsurpassed residual control of over 50 grasses and broadleaf weeds. The XRT platform delivers performance that rivals equivalent branded products. Pre-plant residual for soybeans positioned at a critical time for weed free fields.

A fast-acting, dual mode of action fungicide that controls over 30 major crop diseases. The combination of preventative and curative activity, proven disease control, and increased plant health is delivered.

Premium nonionic surfactant with oil like performance with penetration and spreading capabilities. A versatile surfactant that has a fit in most pesticide applications.

Outstanding mix of bifenthrin insecticide for control of piercing and sucking insects and mites on many crops, plus our Endurx technology which delivers a higher dosage faster by creating more points of contact.

*Restricted Use Pesticides
