

TREVO[®] DCZ

TREVO[®] DCZ is dual mode of action fungicide that offers preventative, systemic and curative activity for the control of multiple plant diseases. TREVO DCZ provides excellent control of many leaf spots, blights, and powdery mildew and can be applied as a foliar spray or can be used in block, alternating spray or tank-mix programs with other crop protection products.

BENEFITS

- Broad spectrum disease control
- Preventative and Curative activity
- Improved plant health
- Translaminar and systemic movement

ACTIVE INGREDIENTS

Azoxystrobin **18.2%**

Difenoconazole **11.4%**

RECOMMENDED ADJUVANT

Valkarie 0.25% v/v

PRE-MIX COMPONENTS

Trevo [®] DCZ	Use Rate	Trevo [®] Equivalent	Top MP Equivalent
	8 fl oz	6.4 fl oz	4.0 fl oz
	10 fl oz	8.0 fl oz	5.0 fl oz

KEY DISEASES

COTTON

- Aerolate mildew
- Alternaria leaf spot
- Boll rots
- Diplodia boll rot
- Leafspot and blights
- Stemphyllium leaf spot
- Target spot

POTATOES

- Black dot
- Brown spot
- Early blight
- Powdery mildew
- Septoria leafspot

RICE

- Panicle Blast

LABELED CROPS
