

SEED TREATMENT

## INOCULANT

Vitalis™ PNI is an inoculant for peanuts that promotes nodulation to enhance the nitrogen fixation activity of bradyrhizobium bacteria. Vitalis PNI is a liquid formulation that guarantees 4 billion viable cells per gram of Bradyrhizobium sp.

## BENEFITS

- Biological bacteria inoculant for peanuts
- Contains the bacteria Bradyrhizobium japonicum which promotes nitrogen fixation
- Increases nodulation for a more productive plant

## CROP RATES

Row Width	Suggested Vitalis PNI Rate oz./acre	1 Unit Treats (acres)
30"	17	9
36"	15	10
38"	14	11
40"	13	12

\*For Twin-row planted peanuts, one unit will only treat 1/2 the amount of acres indicated in the chart.
