**VITALIS<sup>TM</sup> RZ**

## INOCULANT

Vitalis<sup>TM</sup> RZ is an inoculant for soybeans that promotes nodulation to enhance the nitrogen fixation activity of bradyrhizobium bacteria. Vitalis RZ is a liquid formulation that guarantees 5 billion viable cells per gram of Bradyrhizobium sp. Specially formulated liquid inoculant and extender for soybeans.

## BENEFITS

- Biological bacteria inoculant for soybeans
- Contains the bacteria Bradyrhizobium japonicum which promotes nitrogen fixation
- Increases nodulation for a more productive plant

## CROP RATES

3 oz per 100 pounds of seed
