

**ZELVIA™\***

Zelvia™ is a zeta-cypermethrin containing insecticide that is fast-acting and effective against a wide range of insect pests. Zelvia is registered for control of over 100 pests on more than 200 crops. Zelvia has a great fit for control of insects such as aphids, cutworms and weevils in crops like alfalfa, corn and soybeans and can be applied before, during or after planting.

## BENEFITS

- Quick knockdown
- Controls over 100 pests on 200 crops
