

VERDIMATE[™]

Humic Liquid Extract

- **VerdiMate Liquid Humic Extract is a naturally occurring organic humate product**
- **For use as a soil conditioner and may enhance micronutrient uptake.**
- **Suitable for all soils and spray apparatus**

Net Contents: 2.5 gallons (9.46 L)

Net Weight: 8.8 lbs. / Gallon @ 68°F (1.05 Kg/L)

GHSversion:15144

VERDIMATE

CONTAINS NON-PLANT FOOD INGREDIENTS

Soil Amending Ingredients:

2% Humic Acid

Derived from: Sub-bituminous coal

98% Other Ingredients (inert material/ water)

DIRECTIONS FOR USE: Proper timing, rate and placement of VerdiMate is important for desired results and highly dependent on stage of crop growth, soil fertility levels and environmental conditions.

MIXING DIRECTIONS: VerdiMate is compatible with liquid fertilizers, micronutrients, pesticides and water. Addition of VerdiMate to these products should not be done without first testing compatibility on a small scale. When mixing with water, fill container half full, then add VerdiMate to the remaining water prior to the addition of buffering agents and pesticides. **DO NOT** tank-mix with carbonate-based pesticides, as efficacy decreases. Follow all directions on pesticide labels prior to mixing with VerdiMate .

AGRONOMIC and HORTICULTURAL USES: VerdiMate Liquid Humic Extract is also ideal for foliar applications. Application rates will vary depending on soil conditions, plant type, nutrient requirement and application method. Consult your local agronomist or Ag Extension Agent for more information for your specific application.

SPRAY INSTRUCTIONS: Apply 2 quarts per acre diluted with 15 to 25 gallons of water

CAUTION: When combined with aqua ammonia, vapor releases may result in pressure build-ups. For such mixtures, only use mixing and application equipment that is vented and/ or has pressure relief valves. Ensure adequate agitation at all times.
