USES

1. The N-P-K balance closely matches the removal of these nutrients by tree and vine crops. All its potash is from sulfate of potash which is more desirable when used on chloride-sensitive crops. AGROPELL by Simplot Tree 'N Vine 12-8-16 is also used as a sidedress application on tomatoes.
2. This product is a commercial fertilizer used as plant food in agricultural crop production. For specific application rates follow the recommendation of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

ADVANTAGES

1. Is an in-line product where each granule contains an accurate proportion of all plant food nutrients guaranteed on the label.
2. Has good handling characteristics. Its free flowing, uniformly sized granules store well and assure even application in the field.
