DIRECTIONS FOR USE

Avail® for Granular Phosphates (Patent No. 6,525,155), a non-plant food ingredient designed for coating on granular phosphate fertilizers, sequesters antagonistic ions in the soil surrounding the fertilizer granule, reduces tie-up of phosphate, and makes phosphate more available to the plant. Avail® increases phosphate availability through all stages of plant growth, including early development, the most crucial period for increasing yield potential. Avail® is water soluble and biodegradable. If undisturbed, Avail® continues to inhibit phosphate fixation throughout the growing season.

AGROPELL™ by Simplot® Avail® 15-15-15 with 10% Sulfur should be used at the same rates as non-coated AGROPELL™ by Simplot® 15-15-15 with 10% Sulfur. This product is a commercial fertilizer used as plant food in agricultural crop production. For specific application rates follow the recommendation of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

WARNING: This product can expose you to chemicals including cadmium which are known to the State of California to cause cancer, birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov
